

RhinoDome Test Station™

Fact Sheet
Part# RDR-TS

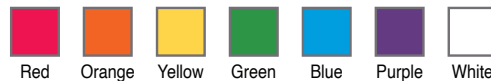

For the fans of dome-style marker posts, we have you covered. The RhinoDome Test Station™ includes graphics that are hot-stamped directly into the post, ensuring the warning message will remain visible throughout the entire lifespan of the marker. It can withstand direct sunlight for a minimum of 10 years without significant fading or cracking.

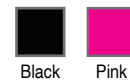

Description:

- Standard lengths: 66" | 72" | 78" | 84" | 90" | 96"
- 3.5" outside diameter
- 19" dome topper
- 10" anchor tube for locking the post into the ground
- 18" bury-depth decal included
- Made with RhinoPoly® – our proprietary blend of thermoplastics
- Performs in temperatures ranging from -40 to +150°F
- The round design of the RhinoDome™ is great for overall visibility
- Standard one-color hot-stamped graphic on two locations
- Industry standard 11-hole terminal board
- Designed for 10+ years of outdoor use with our 10-year warranty
